PROJECT DESCRIPTION

Web Design - Samet Corp.

Recreating Sametcorp.com was a fun project. The company had no internal design team at the start and we were tasked with recreating the entire site, re-organizing all information architecture and then training the future team on how to manage the content. It was a big project. Over the course of 4 years we watched Samet grow from 400 million in revenue to over 1.5 billion!

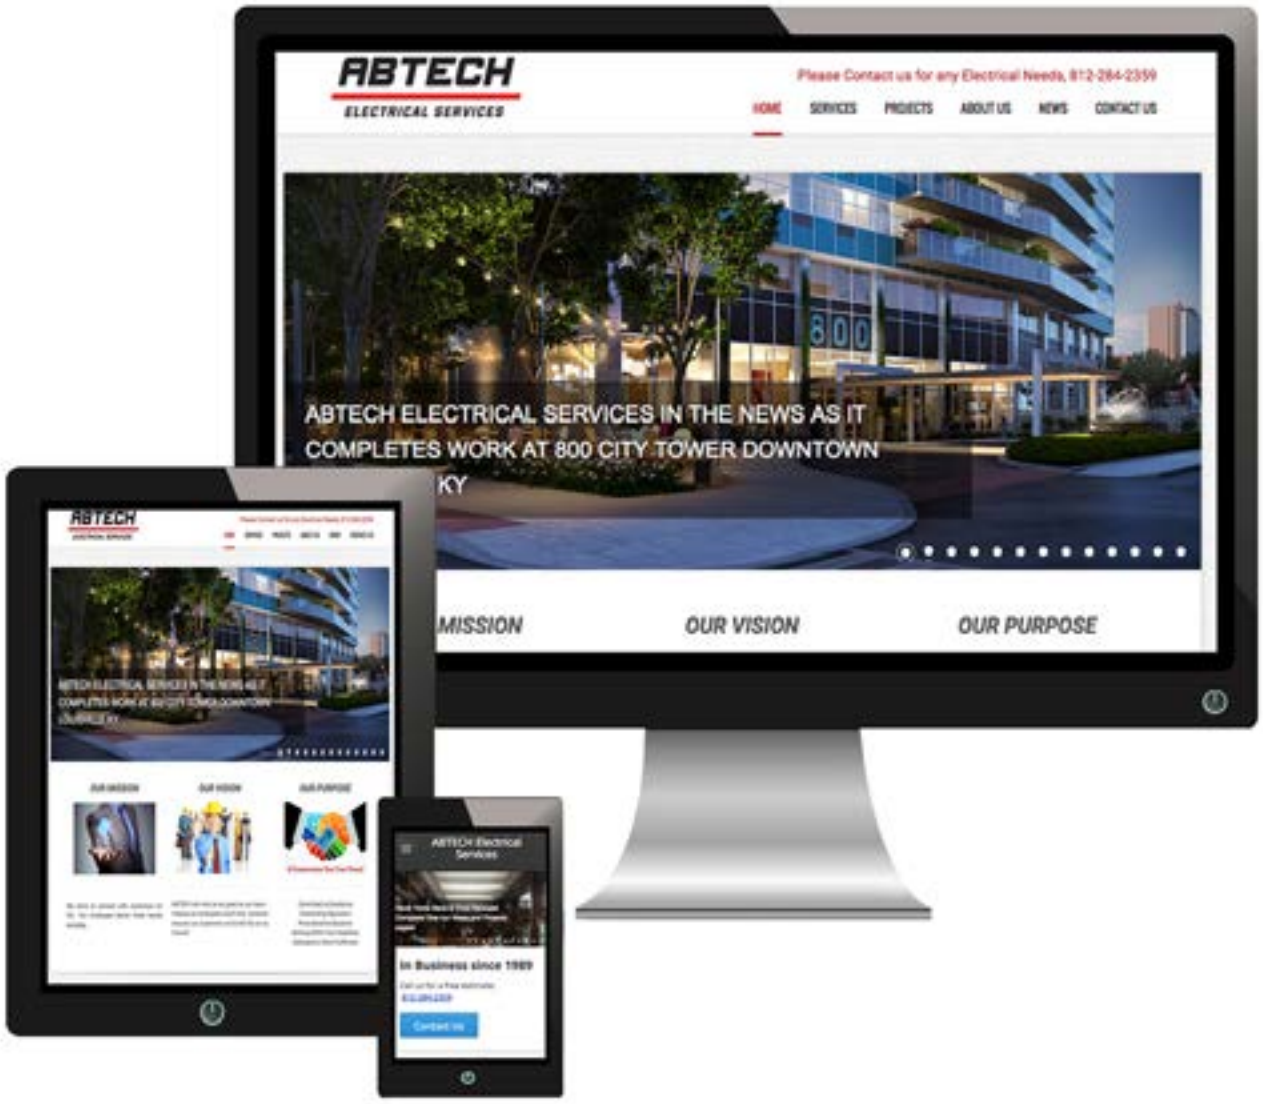

PROJECT DESCRIPTION

Web Design - CHMuseums

This redesign comprised two challenges. First was navigating the SC state government procurement process, which implements strict demands on companies they intend to hire. The second challenge was using the web to tell the story of the museum groups, giving more promotional space on the homepage for special events that could be easily changed based on the season/holiday/venue/celebration.

PROJECT DESCRIPTION

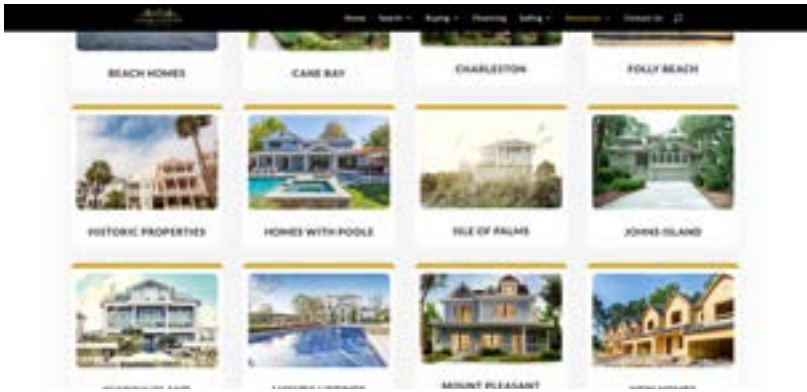

Web Design - ABTECH Electtric

Abtech is a wonderful team of electricians and engineers that was not properly promoting the company with the right design or content. Their original site was disjointed, hard to navigate, and didn't represent the primary service offerings the company wanted to focus on. After carefully gathering client feedback, collaborating with the marketing team, we overhauled the menu and removed the generic stock
